

NEW

One piece construction.
Increased production.

3M™ Roloc™ Disc 988R featuring 3M™ Cubitron™ Abrasive Grain.

Size: 3" disc Grades: 24, 36, 50, 60 and 80

High productivity blue disc outperforms other coated abrasive discs in typical grinding applications. Unique, one-piece construction eliminates potential button delamination and may enhance the disc's cutting ability.

**METAL
WORKING**

Ideal for weld leveling
and surface work.

Cubitron Abrasive Grain delivers value. As one of the hardest, longest-lasting minerals available, fast-cutting Cubitron mineral will stand up to the intense heat and stress of heavy grinding. This makes it ideal for grinding mild and carbon steel.

Cubitron™
Abrasive Grain

Dia	Grade	UPC	Min./ Case	List Price
Roloc TR (Plastic Button)				
3"	24	051141-20024-8	50/200
